

Uh
(Ey)

And I know what it's like to be you
And I know what it's like to have to
And I know what it's like to be cruel
And I know what it's like I just do
Fuck it
I'm on my own, fuck it
I wanted you, fuck it
I see the noose, fuck it
I want my one (uh)
That got you love (uh)
I know you're stuck (huh)
Just like you want (huh)
Be scared, talking like you know it's coming
Be scared, I noticed that you're fucking running
And you're saying all this shit
You hide from the truth

Don't hide no more
I see right through
Don't hide no more
Yeah
I see right through
Mental mental
Drive me mental
I can't fucking feel insane
Cycle cycle, same old cycle
If I should stop, feel this pain
I see right through your shit
I see right through you
I see through your fucking lies
I see right through you

And I know what it's like to be you
And I know what it's like to have to
And I know what it's like to be cruel
And I know what it's like I just do

I see right through
I see right through
I see right through
I see right through
I see right through
I see right through

Suck my dick
