

WHY? LISTEN?.

Scarlxrd

Outby16 are dead in the scene but put together (Yeah) forever
WNDWS

Ah, yeah, ye-yeah, Scarlxrd

Do that shit in shadows we don't step into the light, yah
We don't throw no shame we throwin' space it's alright, yah
I been on my phase, I need faith and a mic, yah
Focused in my play, I been scoring, they don't like that
Only profit in my vision, ah
I ain't got no problems, bitch, I fixed them
I metabolize the hate out my system
I heard them sending shots but we don't listen
Ey, they missin', I'm not a target
I'm 'bout my wallet, I'm sorry
If I repeat myself it's in my conscious
I got this, focus slackin'
And I wanna sum it
Then touch it
Appeal everything so you might vomit, ah

I just got a clip up all you niggas done
Addicted to the ways I won't take it slow
No no no what that is the flow
When I get it I just move onto a different goal
I don't need to prove shit, they all know that I'm a monster
Anything I prove, I'll probably do it and just conquer
Run that lonely I had to get this money longer
I don't keep in my closet, I keep bills inside my locker

Do that shit in shadows we don't step into the light, yah
We don't throw no shame we throwin' space it's alright, yah (Alright)
I been on my phase, I need faith and a mic, yah
Focused in my play, I been scoring, they don't like that
Only profit in my vision, ah (Woof)
I ain't got no problems, bitch, I fixed them (Move)
I metabolize the hate out my system
I heard them sending shots but we don't listen
Ey, they missin', I'm not a target
I'm 'bout my wallet, I'm sorry
If I repeat myself it's in my conscious
I got this, focus slackin' and I wanna sum it
Then touch it
Appeal everything so you might vomit, ah

Woah, 'cause I wanna be a broke, I can't be bothered with your truce
Keep it proper we don't buy into the drama, unpredictable, my tryna
My head's stone so don't you holler
Yeah my finger's hard as rubber
I can sleep while burning cheddar
Not my fault
I was just more blessed it's not my fault
Plans inside my head, it's like a vault
These days I stay down and less involved
All my observations may resolve
My competition's looking really sluggish with the salt
Pokerface is active I can see it when they bluff
I'm gon' be impressed if they gon' do me for assault

Focus on my pleasure I cannot stress that enough

Do that shit in shadows we don't step into the light, yah
We don't throw no shame we throwin' space it's alright, yah (Alright)
I been on my phase, I need faith and a mic, yah
Focused in my play, I been scoring, they don't like that
Only profit in my vision, ah
I ain't got no problems, bitch, I fixed them
I metabolize the hate out my system
I heard them sending shots but we don't listen
