Turn your back (Weh, go, fuck, blegh)  
Turn your back

Y-Y-You won't see my crying for help on this planet  
Humans are still running from death when you vanish  
Put that fucking brain inside the ground  
Fuck the future, I'm living for now  
W-W-W-W-Why is everybody acting like they get it?  
They teach us lies and we eat them for breakfast  
Our hearts, souls, are still in agony  
Fuck the window, I'll dive off the balcony  
Yuh, I'm stronger than you  
Pull up if something be bothering you  
Try and be honest with positive views  
Don't look back at what they offering you  
I stopped reading comments since you wanna criticize  
Tell me that you hate me if it helps you sleep at night (Go)  
Talk about beast mode  
Accept the things we know  
Yeah, kill your own ego  
Pull the trigger and reload  
I-I-I put myself in this fortress  
Dry your eyes, I won't save you  
You're no different to the corpses  
You'd kill yourself if it paid you  
Sell your soul in an auction  
Th-Th-Th-The self destruction won't change you
