

I keep on reminiscing contemplation on my mind  
Never been complacent, I'ma make it every time  
Watch the shit I'm choosing, every day could change my life  
Working on my habits, need to train and not decline  
Me and Muppy proved it, nigga, this is our time  
I'm not with illusions, so we move and untie  
I just wanna improve everyday at a time  
Next time you try move up, better stop and think twice

Pull, pull, pull up that boy, wheel up! Wheel  
You're now tuned in to LxrdAudix  
Yeah, Scar-lxrd  
How I got this far without these bezels on me?  
Yeah, yeah, yeah, yeah  
In a better place but life is different now  
But it don't care, we seek damage from it

Speaking on me's bad for your status, homie  
How I got this far without these bezels on me?  
I've been fucking grinding till it's all gone  
We all know the reason why they jealous of me  
Who said I can't get far?  
Change my mind and flip, I'm just a Gemini  
I still pray though the downsides  
I'm tryna chill on planet for a long time

Weh di bloodclaat do yuh? Siddung, siddung  
It's Scarlxrd, duh

My problem isn't yours  
I control my limits now, I'm stepping with the brick, ayy  
Not a role model, I don't really squabble  
Since I slowed down substances, but never get it twisted  
I could put you in a spliff, I keep shit consistent  
In a daze, now I'm locked in with persistence  
Different how I play, Scar and Muppy no assistance  
Whole other game, how me shoot from all positions  
Change the pace, evolve the path  
Name a wave, I'll blow the gas  
Solve the hate, I closed the app  
Hate the fame, I can't relax  
Stayed in faith and made a stack  
Wasted age on holding back  
Painted rage to heal attacks  
I made the trade for realer fans

We gon' let it happen if it's meant to burn  
Mistakes will keep happening if you never learn  
I've been hating things and trust, it never works  
Karma really made me chew up every word  
I keep my mindset in another world  
I once felt hell to lose now I accept the hurt  
Our life is mostly faked on all these surfaces  
We need another lesson with new messages

I keep on reminiscing contemplation on my mind  
Never been complacent, I'ma make it every time

Watch the shit I'm choosing, every day could change my life  
Working on my habits, need to train and not decline  
Me and Muppy proved it, nigga, this is our time  
I'm not with illusions so we move and untie  
I just wanna improve everyday at a time  
Next time you try move up, better stop and think twice

Makes you wonder... Makes you wonder what the world is coming to
