

Yujirx's Theme

Scarlxrd

Reapyy

Too easy, talk to me, man

Is that Shoki on the beat ?

Me no wan nobody to talk to, to me right now, hear? (Lxrd)

Everything alright, ready?

Lxrd, yeah, okay, uh

Shit is too easy, I move like an addict

Regret if you mention me, I'll bring the static

My jaw is still loaded, I'll aim and I'll bang it

The way it unfolded, shit looks like it's magic

Nobody can try me, on soul I'll do damage

I put in the work with the flow, now I'm active

I'm different from all of these niggas, I'm 'bout this

I really put work in since Albion, damn it

This life is on easy mode, never a challenge

If niggas competing then come on, let's have it

These niggas forgot I'm from Wolvo with passion

I came from the mud, now I'm shotting off fashion

I get me a dub and another to gas it

Come try and test all of your luck from the baddest

Can't promise you'll make it or even gon' manage

The shit I do really just might make you vanish

They want you down bad with nothing

Shit that you talking, you bluffing

If I'm alive then I'm stunting

Straight to the money, I'm running

Fuck all these niggas assumptions

Scarlxrd is still in discussion

I realized how I function, fuck this

If it's coming in, we gotta get it then we count it

Everything I've said, I don't regret it, I'm astounding

Never with the less, I get the many and it's sprouting

Had to take it steady, watch a nigga stay grounded

Now I'm 27, I ain't worried 'bout a coward

Looking for a mention, you won't get it, I'll just blast you

Clip inside my jaw, I got it ready and it's mounted

Ain't no conversation, we ain't feeling how you're sounding

Still in the dojo

Anything to get it and triple the bank roll

Lately, I've been thinking of changing the angle

How you really moving with nothing to stand for?

Easy when I'm killing shit living in mansions

Any competition can't handle the cancel

My shit sounding harder than all of the scandals

Ain't fucking with nobody, no

Fucking with nobody, no, uh

I ain't fucking with nobody, yeah

Fucking with no, huh

I ain't fucking with nobody

Fucking with no

I ain't fucking with no, fuck

Who you is?

In all black like a solar eclipse
Fuck that shit, it's a total eclipse
Only darkness gon' come from my lips
I just started the Scarpocalypse
This the shit from my unconsciousness
I ain't fucking with no polities
On my own man, I got this, I'm sick
Never
I ain't built for surrender
DXXMLIFE coat, it looks better
Bear my soul when it's tender
Get up and taste failure
Been on this since saviour
While they hate, I get paper
Hate is just fuel for my favour, bitch
Who you think you're fucking with?
Scars all on my back, I bet they loving this
Formulate attacks and let's see what you get
Scars still on my back, I bet they loving this
I bet they, ah

They want you down bad with nothing
Shit that you talking, you bluffing
If I'm alive then I'm stunting
Straight to the money, I'm running
Fuck all these niggas assumptions
Scarlxrd is still in discussion
I realized that I'm buzzing, jumping
If it's coming in, we gotta get it then we count it
Everything I've said, I don't regret it, I'm astounding
Never with the less, I get the many and it's sprouting
Had to take it steady, watch a nigga stay grounded
Now I'm 27, I ain't worried 'bout a coward
Looking for a mention, you won't get it, I'll just blast you
Clip inside my jaw, I got it ready and it's mounted
Ain't no conversation, we ain't feeling how you're sounding

Ain't fucking with nobody, no
Fucking with nobody, no, uh
I ain't fucking with nobody, yeah
Fucking with no, huh
I ain't fucking with nobody
Fucking with no
I ain't fucking with no, fuck
