

Abomination

Scars of Tomorrow

What makes your thousand
Battle for disgusts
This ocean between us
Overcome to destroy
Behind the tomb from the grave
Suffering allegiance from seasons
Slaughtered the betrayed of children your burn
Nothing leaves this burn
Standing between this home
Savor every breath promises
Darkest the horror
I see jawdrop
I see the ground deceived
Generation your makes and dreams
Through your struggle
Frostbite to ages
Autumn the embraced
Relentless of eternity
Conquering the ages
We are vices
Heart to fear the nothing
Sincerity the victim and hopes
Silence and ground
Fear the sorrows
Strength the your seeking
From the covenant survivor
Stand tomb and the grave
