

Destroy The Power

Scars on Broadway

Your beginning and end are a sickness
A terrorizer like Richard Ramirez
Can't you see the abuse creates strength for us
We take the power and we can destroy you
The Ayatollah in Tehran, Iran
Slicing the poppies in Afghanistan
Can't you see the abuse creates strength for us
We take the power and we can destroy you
We take the power and we can destroy

Blissful blessings, eraser of the past
Gonna make it last, gonna make it last, make it last
Blissful blessings, eraser of the past
Gonna make it last, gonna make it last, make it last

The world champion of inhumane
Makes motherfuckers embrace the pain
Can't you see the abuse creates strength for us
We take the power and we can destroy you
We take the power and we can destroy

Blissful blessings, eraser of the past
Gonna make it last, gonna make it last, make it last
Blissful blessings, eraser of the past
Gonna make it last, gonna make it last, make it last

We take the power and we can destroy you
We take the power and we can destroy
We take the power and we can destroy you
We take the power and we can destroy you
We take the power and we can destroy
We take the power and we can destroy you

A violin on a paper clip
But too many shoot from the hip
Can't you see the abuse creates strength for us
We take the power and we can destroy you
We take the power and we can destroy

Blissful blessings, eraser of the past
Gonna make it last, gonna make it last, make it last
Blissful blessings, eraser of the past
Gonna make it last, gonna make it last, make it last

We take the power and we can destroy you
We take the power and we can destroy
We take the power and we can destroy you
We take the power and we can destroy you
We take the power and we can destroy
We take the power and we can destroy you
