

# Talking Shit

Scars on Broadway

Maybe your lazy  
Sitting hazy  
In the sun

Anticipating  
Maybe waiting  
Just for fun

All of your friends are watching you as you go by  
All of your friends are talking shit while they get high

Asking dimensions  
Of the questions  
On the moon

Maybe you're certain  
That you're learning  
But you're fooled

All of your friends are watching you as you go by  
All of your friends are talking shit while they get high

All of your friends are watching you as you go by  
All of your friends are talking shit while they get high  
All of your friends are talking shit while they get high
