

Stuck

Scene Queen

My glasses are fendi
And the shoes are miu miu
I'm serving looks so good

They should be pay per view
I see you glaring at me
Like what is she gonna do
Well bitch I know I'm cute
Can't say the same bout you

There's something in the air
I'll get it off my chest
And if you wanna come and try me
Then be my guest
It's a full course meal
You're about to get served
With my fist in your face
And your ass on the curb

So fix your face bitch (so fix your face bitch)
You need a facelift (you need a facelift)
You better close your mouth
Before your jaw gets stuck on the pavement
You need a facelift

It might get stuck
It might get stuck

So what's good you got nothing to say
Bitches stay mad cause I slay everyday
And you look so good when you're walking away
Smoke my cig ash it on your face
We runnin we gunnin
Shut them down
Cause we stunnin
Yeah we've been there
We've done it
Bitch we just want your money

There's something in the air
I'll get it off my chest
And if you wanna come and try me
Then be my guest
It's a full course meal
You're about to get served
With my fist in your face
And your ass on the curb

So fix your face bitch (so fix your face bitch)
You need a facelift (you need a facelift)
You better close your mouth
Before your jaw gets stuck on the pavement
You need a facelift

So fix your face bitch (so fix your face bitch)
You need a facelift (you need a facelift)
You better close your mouth

Before your jaw gets stuck on the pavement
You need a facelift

It might get stuck
It might get stuck
It might get stuck
It might get stuck
