

Alive

Schiller

It gets cold the moment you close your eyes
And so terribly dark.
It gets cold the moment I feel your pulse.
With no blood in your heart.

Dream when you drift off tonight
And follow me home.
It gets cold the moment you see the light
With no love in your heart.

Oh, every night I can feel you.
Oh, when I'm lost and alone.
Oh, every night I can feel you.
Oh, every night

Lift your voice and sing to the deep sky.
Hold me close and don't let me go.
Spread your tiny wings 'cause you are flying high.
Oh, I swear you make me feel alive.
You make me feel alive

It gets real the moment you loose your grip.
And life tears you apart.
It get's real the moment you see the light.
With no love in your heart

Dream when you drift off tonight
And follow me home.

Oh, every night I can feel you.
Oh, when I'm lost and alone.
Oh, every night I can feel you.
Oh, every night

Lift your voice and sing to the deep sky.
Hold me close and don't let me go.
Spread your tiny wings 'cause you are flying high.
Oh, I swear you make me feel alive.
You make me feel alive

Oh, every night I can feel you.
Oh, when I'm lost and alone.
Oh, every night I can feel you.
Oh, every night

Lift your voice and sing to the deep sky.
Hold me close and don't let me go.
Spread your tiny wings 'cause you are flying high.
Oh, I swear you make me feel alive.
Oh, I swear you make me feel alive.
