Energy

Energy

Energy

Sweet sounds of symphony  
Formulate within my trouble mind  
I recall the years we are young  
Carefree, immune, sublime  
And I ask me so why  
And I ask me so why

Energy

Energy

Captivates me

Draws me into you..

Focus on the memories  
Blossoming to rescue me  
They hold me close and watch me grow  
Initiate, reflect, goodbye  
And I ask me so why  
And I ask me so why

Your energy

Your energy

Captivates me

Draws me into you..

Energy

My fears subside don't go  
The simple truth its all we know  
Reflection of the past will show  
Your energy  
Your energy  
Your energy  
Captivates me  
Draws me into you..  
Energy.....
