

# Everything

Schiller

Stars and souls tied by charge  
Stars and souls  
We are dust that's made up of love  
We are dust  
Particles of love we are

It's everything, everything  
Everything we are  
It's everything, everything  
Everything we are

Stars and souls tied by charge  
Stars and souls  
We are dust that's made up of love  
We are dust  
Particles of love we are

It's everything, everything  
Everything we are  
All we are  
Everything, everything  
Everything we are

Can we love when there's no return  
Can we dream, can we hope  
Can we be, can we learn  
We can feel like there is no fear  
There's a place for love and the love is here

Can we love when there's no return  
Can we dream, can we hope  
Can we be, can we learn  
We can feel like there is no fear  
There's a place for love and the love is here

All we are  
It's everything, everything  
Everything we are  
Everything we are  
It's everything, everything
