Sunrise

Schiller

Before the dawn and after sunset
the night is long
the night is long
will we be lost in only darkness
from now on
from now on
how will i find you
before the night is through
oh stay with me
and you will see
the sun will rise
the sun will rise
the sun will rise my love
the sun will rise
the sun will rise
the sun will rise my love
before the dawn and after sunset
i am lost
i am lost
but then i feel you through
the darkness
and i am found
oh i am found
the sun will rise
the sun will rise
the sun will rise my love
the sun will rise
the sun will rise
the sun will rise my love
