

Mexico

Aliocha Schneider

Do you remember Mexico dear?
The beach hotel and the cold beers?
We took it easy, took it slow
And then we started getting physical

The sun was shining bright and nothing else was on our mind

I love you I love you I love you I love you
How I do (tell me)
I love you I love you I love you I love you
How I do (tell me)
How did we get here?
How did we get here?

How did we get here oh my love?
How did we get here oh my love?

Do you remember Mexico dear?
The beach hotel and the cold beers?
I know I've got to let it go, baby
But when I think about these days
It's just impossible

The sun was shining bright and nothing else was on our mind
The sun was shining bright and nothing else was on our mind

I love you I love you I love you I love you
How I do (tell me)
I love you I love you I love you I love you
How I do (tell me)
How did we get here?
How did we get here?

My love
My love
