

Moon

Aliocha Schneider

I'm talking about the moon
Somewhere in between you and I
I'm lost
I'm talking about the moon
Somewhere in between you and I
I'm lost
I don't know where I'm headed
It's all about the movie stars
I don't know where I'm headed
It's all about the movie stars
I'm talking about the moon
Somewhere in between you and I
I'm lost
You know I know your bro
He told me how he found you
With broken bones, your clothes
Were soaked in blood, is that true?
I'm talking about the moon
Somewhere in between you and I
I'm lost
I'm talking about the moon
Somewhere in between you and I
I'm lost
