Extra Extra

School Gyrls

Extra, extra, extra, extra, extra, extra, extra
You got this issue girl
With the things that you've been saying
Ain't trying to diss you girl
But I'm done with the games you're playing
I tell you all the time
Stay up out my buis
But you can't mind your own
And that's what the issue is

So when you see that's it all good
And act like everything's gonna be fine
But when you see me with my boy
You do the same thing you do all the time
You be like where he at? and where you go?
And who's that texting? and who you calling?
And I won't take it personally
Cause you just hate on everything

She's on the extra, extra
You can read all about it
She's got an issue
With me being with you
She's on the extra, extra
Why you gotta be so extra extra?
She's on the extra, extra
Why you gotta be so extra extra?

You make excuses saying that he doesn't love me
I'm on the phone with him
And you're behind me saying
You act like you're the police of our love
But you're trying to mess it up
You just need to fall back, get off of my back

So when you see that's it all good
And act like everything's gonna be fine
But when you see me with my boy
You do the same thing you do all the time
You be like where he at? and where you go?
And who's that texting? and who you calling?
And I won't take it personally
Cause you just hate on everything

She's on the extra, extra
You can read all about it
She's got an issue
With me being with you
She's on the extra, extra
Why you gotta be so extra extra?
She's on the extra, extra
Why you gotta be so extra extra?

Jacque nimble, jacque nimble
Let me put these chicks in their place real quick
Uh, instrumental, instrumental
Is what I'm about to pick when I spit on this

Extraordinary flow, hysteria everywhere we go
I'm the track, Jacque, Mandy, Mo
It's like go-go-gadgets, inspect the show
We bout to blow, respect the dough
Cause it's so incredible
When the school girls coming to the party, yo
It's just one thing that we got to know
Why you gotta be so extra extra?
Why you gotta be so extra extra?
Why you gotta be so extra extra? Always so extra

She's on the extra, extra
You can read all about it
She's got an issue
With me being with you
She's on the extra, extra
Why you gotta be so extra extra?
She's on the extra, extra
Why you gotta be so extra extra?

She's on the extra, extra
You can read all about it
She's got an issue
With me being with you
She's on the extra, extra
Why you gotta be so extra extra?
She's on the extra, extra
Why you gotta be so extra extra?
