

Run Run Run Run Run

School Is Cool

Try whatever you want to try
Pull whatever string you need to pull
Chasing daylight on the under side
Chase no further, got a pocketful

Run, run, run, run, run
Run 'till your pulse drops
Run 'till your heart stops
And your veins run dry

Can't imagine? Just wait head in
Still waiting on a breakthrough
I never knew what I was getting into

Run, run, run, run, run

Run 'till your thighs ache
Run 'till your lungs break
And your soles come off
Run, run, run, run, run
Run with the wolf pack
Run, never come back
Go ahead, get lost
Run, run, run, run, run
Run 'till your pulse drops
Run 'till your heart stops
And your veins run dry
Run, run, run, run, run
Run until you're headfirst
Run until your head bursts
Get your runners high
