

### 3 Strange Days

School Of Fish

For three strange days  
I had no obligations  
My mind was a blur  
I did not know what to do  
I think I lost myself  
When I lost my motivation  
Now I'm walking 'round the city  
Just waiting to come to  
For three strange...  
For three strange days  
I couldn't put a smile on my face  
So they dressed me up in all of their clothes  
And took me somewhere else  
Johnny Clueless was there  
With his simulated wood grain  
So I pulled up a chair  
And started drinking by myself  
For three strange...  
I've got to make it through  
No matter what it takes  
Oh I've got to make it through  
These strange days  
I lay down for a while  
And I woke up on the ocean  
Floating on my back  
And staring at the gray  
It was completely still  
Except the pounding of my heart  
Bringing me back to life  
From three strange days  
Three strange...  
Three strange days  
Three strange days
