

## Put Your Sad Down

### School of Seven Bells

I know you gotta, you gotta be on your own  
Who left you wanting, wanting to fall in love.  
That's alright 'cause all that I wanna do  
Is make you forget, forget that you feel so bad,  
Give your heart a second to find the will again,  
Put your sad down,  
And tonight just feel with your body.

And tonight just feel with your body

Put your sad down  
And tonight just feel with your body  
Put your sad down

So baby no pressure  
I'm just talking pleasure  
[x5]

And tonight just feel with your body  
So baby no pressure,  
I'm just talking pleasure  
So baby no pressure,  
I'm just talking pleasure  
So baby no pressure,  
I'm just talking pleasure  
And tonight just feel with your body  
So baby no pressure,  
I'm just talking pleasure  
So baby no pressure, put your sad down  
I'm just talking pleasure  
So baby no pressure,  
I'm just talking pleasure  
And tonight just feel with your body

So baby no pressure,  
I'm just talking pleasure  
So baby no pressure,  
I'm just talking pleasure  
So baby no pressure,  
I'm just talking pleasure  
So baby no pressure,  
I'm just talking pleasure  
So baby no pressure,  
I'm just talking pleasure

I know you gotta, you gotta be on your own  
Who left you wanting, wanting to fall in love.  
That's alright 'cause all that I wanna do  
Is make you forget, forget that you feel so bad,  
Give your heart a second to find the will again,  
Put your sad down,  
And tonight just feel with your body.

So baby no pressure,  
I'm just talking pleasure  
So baby no pressure,  
I'm just talking pleasure

SO baby no pressure  
I'm just talking pleasure  
And tonight just feel with your body  
So baby no pressure,  
I'm just talking pleasure [x4]
