

# This Is Our Time

School of Seven Bells

These are the days  
With the sun we escape into night  
To the haze of the bright lights  
We become stars under gold painted eyes  
And are dreaming the template for our lives  
These are the kisses that burn on our lips  
Every time  
Every night  
We fall in love again  
This is the touch that remembers  
Tonight could be the end  
So let's go until the sunrise

Our time is indestructible  
We are borderless lights in the sky  
We are gods tonight  
Eternal

We own the night  
And when we come together  
We shake up the ground  
Underneath our feet  
No one can say we're too young  
To decide that we're gold  
We're the fires in the street

Our time is indestructible  
We are borderless lights in the sky  
We are gods tonight  
Eternal

We are free to dream  
This is our time  
Of our becoming

Our time is indestructible  
We are borderless lights in the sky  
We are gods tonight  
Eternal

This is the night  
To wish  
To dive  
To fall  
To show  
Who we are  
This is our time  
And our time is indestructible
