

# If You Were Gone

Schuyler Fisk

I don't wanna plan a funeral  
While I'm on a plane to see you  
It's like nothing I can give will be enough  
Not even love, not even love, not even love

I do my best to save you  
From yourself, you say you're fine  
But I know what's been on your mind

If you were gone  
If you were gone  
How can I breathe  
And if you were gone  
If you were gone  
Who would love me  
Nothing replaces you  
Just empty spaces where you once belonged  
If you were gone  
If you were gone  
If you were gone

And I don't wanna have you on my mind  
And never get to hold your hand again  
And you have to hear me once before you go  
On the radio, on the radio, on the radio  
It's getting hard to save you  
So tell me what I need to say  
To get you through another day

If you were gone  
If you were gone  
How can I breathe  
And if you were gone  
If you were gone  
Who would love me  
Nothing replaces you  
Just empty spaces where you once belonged  
If you were gone  
If you were gone  
If you were gone

Hold me  
I know you're lonely  
You're not the only one

If you were gone  
If you were gone  
If you were gone  
If you were gone  
If you were gone  
If you were gone

And if you were gone  
If you were gone  
How can I breathe  
And if you were gone  
If you were gone

Who would love me  
Nothing replaces you  
Just empty spaces where you once belonged  
If you were gone  
If you were gone  
If you were gone

If you were gone  
Gone  
If you were gone  
Gone  
If you were gone  
Gone, gone
