

Take Back Everything

Schuyler Fisk

You're gonna meet somebody soon
You're gonna drive her around
In your new old classic car
With the windows down

She's gonna fall in love with our dog
She's gonna wanna hold your hand
But I want you to be happy
Even if it makes me sad

Cause you deserve
More than what you had
You got a heart of gold
And I took it for granted
You're the kind of guy you marry
Not the kind you leave
Wish I could take back everything

You're gonna tell your mom about her
And the way you make her laugh
The southern town she came from
And the color hair she has

And when you take her home for Christmas
She's gonna love your family
And she's gonna be
Better than me

Cause you deserve
More than what you had
You got a heart of gold
And I took it for granted
You're the kind of guy you marry
Not the kind you leave
Wish I could take back everything

Can't go
Can't go back now
Can't go
Can't go backwards

No, I can't do it differently
No, I can't change anything

You deserve
More than what you had
You got a heart of gold
And I took it for granted
You're the kind of guy you marry
Not the kind you leave
Wish I could take back everything

Wish I could take back everything
Wish I could take back everything
