

Devil's Symphony

Scooter

I know the devil's gonna come tonight
He wants to bring me to the other side
I told him I'm gonna rave 'til morning light
Yeah I won't leave I'll party till I die

Yeah
Come with me
To the other side
Leave reality behind

The place is on fire
Like heaven and hell
We're getting even higher
With the angel who fell
And we know you want more
From the classic to the core
Like to be or not to be
We got the devil's symphony
Yeah

Rough

I know the devil's gonna come tonight
He wants to bring me to the other side
I told him I'm gonna rave 'til morning light
Yeah I won't leave I'll party till I die

One more time

Yeah

I know the devil's gonna come tonight
He wants to bring me to the other side
I told him I'm gonna rave 'til morning light
Yeah I won't leave I'll party till I die

La la la la la la la la la la la la la la la
La la la la la la la la la la la la la la la

Everybody

La la la la la la la la la la la la la la la

Louder

La la la la la la la la la la la la la la la

A party 'till I die
