

Groundhog Day

Scooter

Remember
We make the ground shake
We're dancing till we fade
Turn it up
Yeah

Living in a time loop
Like Groundhog Day
No life without party
No life if we don't play

Am I dreaming of you now?
Come and help to find my way out
Am I dreaming of you now?
Come and help to find my way out, my way out

Shake your hips and do the splits
The stage is ready and we arrive
This is the moment I feel alive

Back on the road
On the next level
All aboard again
I'm the dare devil

(Yeah) Am I dreaming of you now?
Come and help to find my way out
Am I dreaming of you now?
Come and help to find my way out, my way out, way out

Yuh, let's kick it
Shake your hips and do the splits
The stage is ready and we arrive
This is the moment I feel alive
