Listen

I sing a song for you Please, listen It's the only way I could speak to you Let your feelings stay so hidden It's the only way I could speak to you

You got the chance when I'm coming up faster Down on the floor to the rhythm and beat You got the chance when I'm coming up faster Down on the floor if you blow up the heat You got the chance when I'm coming up faster Down on the floor to the rhythm and beat You got the chance when I'm coming up faster Down on, down on the floor, up the heat

I sing a song for you Please, listen It's the only way I could speak to you Let your feelings stay so hidden It's the only way I could speak to you

You got the chance when I'm coming up faster Down on the floor to the rhythm and beat You got the chance when I'm coming up faster Down on the floor if you blow up the heat You got the chance when I'm coming up faster Down on the floor to the rhythm and beat You got the chance when I'm coming up faster Down on, down on the floor, up the heat I sing a song for you Please, listen It's the only way I could speak to you Let your feelings stay so hidden It's the only way I could speak to you

I sing a song for you Please, listen It's the only way I could speak to you
