

Sun Comes Back Around

Scooter

Be savage, not average!
Yeah!

When the lights go out
And the world slows down
We don't go to sleep
'Til the sun comes back around
When the night is too loud
We drown in the sound
Dive into the deep
'Til the sun comes back around

Fight the boredom!
Yeah!

When the lights go out
And the world slows down
We don't go to sleep
'Til the sun comes back around
When the night is too loud
We drown in the sound
Dive into the deep
'Til the sun comes back around

Come on!
Yeah!

Most stuff you hear at your nightclub
Sounds like a cow farting in a bath tub
We got the real shit, we're gonna make you move
All night long, we do it loud, never smooth

When the lights go out
And the world slows down
We don't go to sleep
'Til the sun comes back around
When the night is too loud
We drown in the sound
Dive into the deep
'Til the sun comes back around

I'm the transformer!
Come on!
Yeah!

When the lights go out
And the world slows down
We don't go to sleep
'Til the sun comes back around
When the night is too loud
We drown in the sound
Dive into the deep
'Til the sun comes back around

Oh yeah!
