

When I'm Raving

Scooter

You dance and we spin
Making me sin
When I'm raving

Sun, rising again,
No need to pretend
When I'm raving

All comes to an end
Break and you mend
When I'm raving

No I won't give in
You lose and you win
When I'm raving

As we drop!
Give me a rush, yeah!
Take me out! and take me away!
Come on!

See the madness, watch the crowd,
Fade the fear, without a doubt
Drop it down low and I'm ready to go,
Chicks are waiting, chicks are craving
When I'm raving

You dance and we spin
Making me sin
When I'm raving

Sun, rising again,
No need to pretend
When I'm raving

All comes to an end
Break and you mend
When I'm raving

No I won't give in
You lose and you win
When I'm raving

Yeah man
Shake the roof!
There's life on mars,
When I'm behind the bars
Yeah
Keep it up!

Speakers stacked, to the ceiling
Bass is pumping, what a feeling
It's all about the flow and I'm ready to blow,
Chicks are waiting, chicks are craving
When I'm raving

Alright!

When I'm on the microphone,
Coming up like a cyclone,
Whenever you're alone, just ring my phone
Moby was right, everything is wrong
If you wanna change it,
Just listen to this song, yeah.

You dance and we spin
Making me sin
When I'm raving

Sun, rising again,
No need to pretend
When I'm raving

All comes to an end
Break and you mend
When I'm raving

No I won't give in
You lose and you win
When I'm raving
