

Which Light Switch Is Which?

Scooter

I wish we could stay forever young
And live each moment , try to make it fun
Yeah I wish we could stay forever young
And live each moment , try to make it fun

Open your eyes
Transforming the vibes
Like a blitz
We're cutting the hits, yeah

Come on
Ahhh
We pick up the pace
And fire rockets

Tune in, drop out, turn it loud
Get into the place and make it real as I shout
We never stop, level in the red
Point of no return and you will never forget, yeah

I wish we could stay forever young
And live each moment , try to make it fun
I wish we could stay forever young
And live each moment, try to make it fun

Cutting the hits
Which light switch is which?
Yes
Get up
Yeah

I wish we could stay forever young
And live each moment, try to make it fun
I wish we could stay forever young
And live each moment , try to make it fun

Kick back
It's the next attack
Yeah
Yee-haw

Like a blitz
We're cutting the hits, yeah

I wish we could stay forever young
And live each moment, try to make it fun
