

All Falls Down

Scorey

(SephGotTheWaves)
(Ayo Pluto, you goin' brazy)
Uh-uh-uh, uh-uh-uh
(Ayo, that shit right, 88)

Glock .27, don't forget the beam wit' it, uh
Just take it slow cause it ain't what it seems, is it, huh?
I called up bro and he pulled on the scene hitting
Chain swinging in the wind, it's colder when the breeze hit it, uh
Stuck in the field, uh, life keep blessing
Wait for a pill, lose your life in a sentence, uh
Zach left us here, like he died on his mission
I be scrolling down his page, and I just cry cause I miss him, uh
I'm really in it, I ain't lied for my image
Pick a side, not the middle
Plus whatever you decide, we still winning, uh
I remember throwing rocks and riding bikes, we was little
We grew up to blowing shots and totin' pipes on a rivet, uh
Through candlelights and all these ghetto memorials
My niggas gone, dead to the streets, with no tutorial
I love my hood, 'cause that's what gave me all my stories though
Walking brodie home, and I end up letting that .40 blow

When it all falls down, oh
Who gon' be with you when them chains ain't around?
I lost my woadie, he got slain on the ground
Tears falling, I just put all of my pain in this sound

If we fire, Jaya will love, don't ever let it go
Don't be afraid to be alone, we all been there before
She in her feelings, playing love songs on the stereo
Stuck in the city with no hope, she got nowhere to go
Your girl be realer than your gang, that's just way it go
That's just one thing to know
If he want beef, we got all you need like it's Trader Joe
We all could link, ain't no making tweets, and no sharing quotes
Lil' cuz be hot, he gon' hit the streets before he make a post
I been taking losses, popping drugs for my pain
Burials and tears and flying doves in the rain
Searching for somebody I could love in this game
She been searching for somebody that she trust, so she say, ayy

When it all falls down, oh
Who gon' be with you when them chains ain't around?
I lost my woadie, he got slain on the ground
Tears falling, I just put all of my pain in this sound
