

Dead Roses

Scorey

Member I used to buy you flowers, now it's dead roses
Laying down for hours in my bed sulking
I was standing in that circle with my lead poking
You said that I hurt you but you left me broken
Wanted me give you the world but you ain't deserve it
I just hate how every girl play like they just perfect
I seen suits and hearses, ducking casket curses
I looked deep inside your heart what I seen made me nervous

I just wish we had a guide on how to make it work
Said I hurt you when I lied but you did me the worst
Missing heart inside my chest I got a vacant shirt
Lay in pain inside my bed like someone page the nurse
Deep talks where I was worried
Heat cocked like come get buried
You asked why would you hurt me
I said cause I was hurting
I just wish we could take it to the old days back when we was f
lirting
I saw you going back to your old ways and that was concerning
I been alone but now I'm only getting lonelier
They call my phone but now they only getting phonier
We was homies first, now I act like I don't notice her
So many problems in a day could make you go berserk

Member I used to buy you flowers, now it's dead roses
