

If You Feel Lost

Scorey

Adre, light 'em up!

Towards that tunnel, I ain't see the light at all
Walk in a straight ass line, just hopin' I don't fall
Madonna's rose, so many times, I can't recall
And I just hope, when it get real, that I could call

If things get rocky, make it right again
Life knock you down, then you get back up, and you fight again
Fly when you fall in love with someone you can try again
In my bed sulkin', swear while having dreams of gettin' high again

So I got high again, then I get high again
And then I stopped it, then I felt like I'm gon' die again
Can't think about my past, that shit gon' make me cry again
If you feel lost, hope I can help you find that light again

Tears on my pillow case, can't tell who hella fake, put on a nice smile
Give or take, can't tell I love or hate this fucking lifestyle
Uh
So much been on my plate, can't take a time-out
They thought they saw my fate before, look how I climbed out

Like, if I tell someone my problems, would they even feel me?
I wore my "poker face" so long that I don't know the real me
If I seek vengeance for my dog, I just hope God forgive me
Might mix codeine, and have the rawl of hope these drugs would heal me

Some people want a Bentley, some people want a family
Some people, they got both, and wonder why they still not happy
I said I don't feel like a star when they try to drag me
If I had to love from afar, would you understand me?

If things get rocky, make it right again
Life knock you down, then you get back up, and you fight again
Fly when you fall in love with someone you can try again
In my bed sulkin', swear while having dreams of gettin' high again

So I got high again, then I get high again
And then I stopped it, then I felt like I'm gon' die again
Can't think about my past, that shit gon' make me cry again
If you feel lost, hope I can help you find that light again
