

## Wedding Vows

Scorey

I'll do anything to see you smile (I'll do)  
Never wanna see you down (I'll do)  
Wedding day, just let me see your gown  
In too deep with your love, I might see you drown  
I swear I'm gonna make you mine  
Promise I'll see you all the time  
A type of love that'd be hard to find  
Will you be my side when the sun don't shine?

They say you fall in love, like three times in life  
And the first two is a lesson, the last one is a wife  
Your man left you for death, but you made it out alive  
I would always be right there to wipe your tears when you have cry  
Do you believe in love? To me it was first sight  
It's true, I fell in love, few have a first try  
Started as a crush, wit' you that's the first time  
Wit' you I found the one, tell the truth, no I won't lie

I'll do anything to see you smile (I'll do)  
Never wanna see you down (I'll do)  
Wedding day, just let me see your gown  
In too deep with your love, I might see you drown  
I swear I'm gonna make you mine  
Promise I'll see you all the time  
Girl, A type of love that'd be hard to find  
Will you be my side when the sun don't shine?

I just wish you weren't out on break  
A heart that don't ache  
I'll get you along, I won't be havin' no complaints  
I want more than one day, booked a flight up out the state  
I want you to come, so send your birthday and last name  
In my head, she runnin' laps, never came in last place  
I would walk across the map just so I could see her face  
Don't talk about the past, it cannot just skip the race  
'Cause I'm with you, girl, and that's how it's gon' stay, so I say gi
