Cold

Scorpions

I'm just an ordinary man
I wasn't born to be a soldier in a foreign land
Now I'm a prisoner of war
I don't know what I'm fighting for
You tore me from my simple life
To die here naked

That was so cold
Cold
Just like the lies that you told
Cold
Nothing but ice in your soul
Cold
The side of you nobody knows
Cold
And everyone loves you

Too young, too innocent to know
How far your master plan would go
You crucify the name of God
Is nothing sacred

Damn you're so cold
Cold
Just like the lies that you told
Cold
Nothing but ice in your soul
Cold
The side of you nobody knows
Cold
And everyone loves you

Damn you're so cold
Cold
Just like the lies that you told
Cold
Nothing but ice in your soul
Cold
The side of you nobody knows
Cold
And everyone loves you

So Cold
Cold
Just like the lies that you told
Cold
Nothing but ice in your soul
Cold
The side of you nobody knows
Cold
