Don't Believe Her

Scorpions

Out for a thrill Got time to kill Just livin' up my dreams for heaven's sake She's on the make A twisted vicar's queen And then one night we took a ride She was all over me Outrageous Just ain't real I was too wasted to see Before you get in too deep And you get burned by the heat Oh yeah She'll take you there You know it happened to me She'll make your heart break She'll give you fever She'll tell you everything but don't believe her A perfect stranger She knows the game She'll promise heaven on earth But don't believe her Out on the street of broken dreams Where no one ever wins Just when you thought you'd made a start You're back where you begin Before you get in too deep And you get burned by the heat Oh yeah She'll take you there I think you know what I mean She'll make you crazy She's such a teaser Says you're the only one but don't believe her She deals in danger The girl's insane She'll promise heaven on earth But don't believe her Before you get in too deep And you get burned by the heat Oh yeah She'll take you there You know it happened to me Don't believe her (Don't believe her) Don't believe her (Don't believe her) Don't believe her (Don't believe her) I can't believe her (Don't believe her) She'll make your heart break She'll give you fever She'll tell you everything but don't believe her A perfect stranger She knows the game She'll promise heaven on earth She'll make you crazy She's such a teaser Says you're the only one but don't believe her

She deals in danger The girl's insane She'll promise heaven on earth But don't believe her Don't believe her Don't believe her Don't believe her
