## **Kicks After Six**

**Scorpions** 

Another morning, such as ordinary day She's doin' time from nine to five The hours waste away There's no escape, She's a part of the bog machine She's a slave to the suit and tie Seven days a week But every night She can hardly wait It feels alright To give it all away Good girls get their kicks after six Good girls get their kicks after six (She needs it bad, real real bad) She wants what she never had All the things that make a good girl bad She gets her kicks after six Some days its hard to face the cruel reality Just waitin' for the bell to ring She wants to be free It feels so good to start another endless night She spreads her wings for another flight She's running wild But every night She can hardly wait It feels alright To give it all away Good girls get their kicks after six (She needs it bad, real real bad) Good girls get their kicks after six (Ooh yeah shake it for me baby) She wants what she never had All the things that make a good girl bad She gets her kicks after six Good girls get their kicks after six (She needs it bad, real real bad) Good girls get their kicks after six (Ooh yeah nothin's gonna stop her) She wants what she never had All the things that make a good girl bad She gets her kicks after six Good girls get their kicks after six (She needs it bad, real real bad) Good girls get their kicks after six (C'mon baby take it to the limit) She wants what she never had All the things that make a good girl bad She gets her kicks after six
