More than anything I want to be

Close to you back in your arms

As the bell will ring across the street we know

Cm Gm

Those memories never go

Bm F (one upstroke)

Leaves are falling from the sky

Why don't we give it just another try

When the winter comes along

The shadows will be gone

The ice will melt away

'cause in front of the old fire, place is warm

Oooh, welcome home

Let me take you back again

C G

To a love has got a name

Am

For you and me

G

Another day another chance

C G

Only love will kill the pain

Am

That hurts so deep

G

Don't waste a moment of your life

F G

'cause it's just a kiss of borrowed time

Dm C Bm Am G

Let me take you back again

To a love has got a name

For you and me

Another day another chance

Only love will kill the pain

That hurts so deep

And we taste the wine

Just another sip of borrowed time
