

Love Is The Answer

Scorpions

All of my life
I asked what I have to try
To get out of darkness
Into the light

The world is a mess
Money is a plague
Eats our soul
And leaves us alone

I wanna know
Somebody has to know
Where do we go
From here

The world is a mess
Ego is a waste
Steals our soul
And leave us alone

"Love", she said
"Love", she said
"Love is the answer,
But I never would see you again"

"Love", she said
"Love", she said
"Love is the answer,
But you never would see me again"

"Love", she said
"Love", she said
"Love is the answer,
But I never would see you again"

"Love", she said
"Love", she said
"Love is the answer,
But you never would see me again"

Love is the answer,
But maybe, I see you again
