

## Slave Me

Scorpions

Life's a kind of struggle  
Living in this town  
I'm never looking back just no just ahead  
My mind was locked up in a cage  
Always ready to break out  
These heavy chains on me drive me mad

I wanna be in love tonight  
I wanna get you where I got you  
Give it just one night  
I wanna be your love tonight  
Slave me

Power's all that matters  
Only one of us can survive  
Tell me are you strong enough to stay on track  
Will I die and go to heaven  
If life was living hell  
All I know is I'm always coming back

I wanna be in love tonight  
I wanna get you where I got you  
Give it just one night  
I wanna be your love tonight  
Slave me

Get me wreck me  
Chase me check me  
Sex me down my spine  
Take me break me  
Love me hate me  
Make me lose my mind

I wanna be in love tonight  
I wanna get you where I got you  
Give it just one night  
I wanna be your love tonight  
Slave me
