

# Too Far

Scorpions

I wanna read in your eyes  
That you mean yes when you say no  
I wanna take a step across that line  
Till you can feel my love

You opened the door and it hits to the core

Ain't got no pearls or diamond rings  
I only got my heartbeat  
But it won't be long and I will win  
And melt inside your heart

You opened the door and it hits to the core

We went too far, way too far  
There's no turning back this time  
We went too far, way too far  
But you're gonna be all mine  
All mine  
Gonna be all mine

You opened the door and it hits to the core

We went too far, way too far  
There's no turning back this time  
We went too far, way too far  
But it's gonna be alright

We went too far, way too far  
It can never be too far  
We went too far, way too far  
To find nothing but real love  
Real love  
Real love  
Nothing but real love
