

Everything Sucks

Scott Helman

I'm feeling sick
Think it's contagious
Don't wanna see
Nobody but you
I haven't tripped
But I can taste it
Don't wanna heal
For somebody new

Every single minute, every second
I can hear my heart is whispering
Baby, are you listening?

Everything sucks
I got fucked up on you
Give everything that I'll ever have
Just to get you back
That's some bad luck
'Cause I'm not done with you
Think about you on somebody else
I wanna kill myself
Everything sucks
Everything sucks
Without you

You're on my lips
In conversation
Don't wanna talk
'Bout nothing but you,
My friends are pissed
Can't stop complaining
"Get over it"
But what can I do?

Every single minute, every second
I can hear my heart is whispering
Baby, are you listening?

Everything sucks
I got fucked up on you
Give everything that I'll ever have
Just to get you back
That's some bad luck
'Cause I'm not done with you
Think about you on somebody else
I wanna kill myself
Everything sucks
Everything sucks
Without you

Sleeping outside your residence
Hoping you come and let me in
Guess I probably burned that bridge
When I was crying on your front step
Playing sad songs just to pretend
I'm not pathetic but you know I am
Can't see the bright side of anything

Without you, it's like

Everything sucks
I got fucked up on you
Give everything that I'll ever have
Just to get you back
That's some bad luck
'Cause I'm not done with you
Think about you on somebody else
I wanna kill myself
Everything sucks
Everything sucks
Without you
Without you
