

I've never been the guy who saves the world
Who makes the play and gets the girl
But tonight, I think I might
You're making me feel invincible
Emotional and physical
So tonight, I think I might

I've never been the one who's good with words
Who breaks it down until it works
But you make me feel like the greatest
I guess what I'm trying to say is

Superman never would've flown as high without his Lois
You're with me when I'm way up in the sky or at my lowest
You got a love stronger than steel
Lifting me up, that's why I feel like
Superman never would've flown as high without his Lois
Lois, Lois
Lois, Lois
Lois, Lois
Lois, Lois

Well, you coulda had your pick of anyone
But you made me your number one
You said tonight, I'll make you mine
I used to think it was fictional
But now you're here I'm ten feet tall
So tonight, I think I might
Take a shot, take the wheel
Call it out, make it real
'Cause you make me feel like the greatest
I guess what I'm trying to say is

Superman never would've flown as high without his Lois
You're with me when I'm way up in the sky or at my lowest
You got a love stronger than steel
Lifting me up, that's why I feel like
Superman never would've flown as high without his Lois
Lois, Lois
Lois, Lois
Lois, Lois
Lois, Lois

Maybe everybody needs saving, saving
Maybe everybody needs saving

Superman never would've flown as high without his Lois
You're with me when I'm way up in the sky or at my lowest
You got a love stronger than steel
Lifting me up, that's why I feel like
Superman never would've flown as high without his Lois
