

## PDA

Scott Helman

Your mama was a doctor  
Mama was a fire alarm  
Eastern European  
I'm gonna miss you when you're gone  
Cause you know I like the view  
Every single time I look at you

They raised you kinda proper  
They raised you like a soldier girl  
But I know you're softer  
So why you looking so concerned?  
I know you don't like PDA  
But just for now I think that it's okay

So hold me close and  
Kiss me now in the fake grand central  
Hair tied up with a broken pencil

Couple next to you  
Says go get a hotel room  
Guess they never felt this way  
So disapproving  
They don't like what we're doing  
We don't have no time to waste  
It's just a little PDA  
It's just a little PDA

Get you in the bedroom  
And you set the world on fire  
But outside of our cocoon  
It's like I'm just another guy  
Because you're so preoccupied  
Why do you think that strangers gonna mind?

If you come a little closer  
Forget about your suitcase babe  
Cause you know when we're older  
We're gonna laugh about today  
Soon you'll be so far away  
And I'm just gonna have to sublimate

If you can't say it  
Write a letter kinda confidential  
Sign your name with a broken pencil

Couple next to you  
Says go get a hotel room  
Guess they never felt this way  
So disapproving  
They don't like what we're doing  
We don't have no time to waste  
It's just a little PDA  
It's just a little PDA

So baby I just need a memory to sustain me  
Cause I get so crazy worried that you'll go and replace me  
So show me with an action

That on the train you won't get plastered  
And hook up with some model slash actor in the bathroom

All that I need, is confirmation,  
By making a scene in the station  
Before they call, tell their children to look away  
You'll be on the train  
Rollin' away, rollin' away

Couple next to you  
Says go get a hotel room  
Guess they never felt this way  
So disapproving  
They don't like what we're doing  
We don't have no time to waste  
It's just a little PDA

Couple next to you  
Says go get a hotel room  
Guess they never felt this way  
So disapproving  
They don't like what we're doing  
We don't have no time to waste  
It's just a little PDA  
It's just a little PDA
