

# Community

Scott Matthew

I have a love  
That the good lord above cannot fathom  
Yet it's rationed  
You don't seem to want it

But if pain wears you thin  
I could color you in , take the grey away  
If you'd let me stay  
if you'd let us begin

Know there is purity  
bestowed on you and me  
I don't believe they'd hate us  
In the face of love

How to make you conceive  
There is community in each other  
Was it your father, or was it the doctor  
Or the institution

But if prayer wears you thin  
Or the wrath of your kin  
I'll take the shame away  
If you'd let me stay  
If you'd let us begin

Know there is purity  
bestowed on you and me  
I don't believe they'd hate us  
In the face of love
