

# Habit

Scott Matthew

there's always something that I said  
It's just a habit of making bad  
there's always something that I did  
turning sweetness into sad

If I'd shut my mouth  
and waited for more  
If I'd shut it out

there's always something that I bared  
its gone and make you run so scared  
It's just a habit of making bad  
turning this way into that

If I'd shut my mouth  
and waited for more  
If I'd shut it out  
and waited for dawn  
If i'd cut the sleeve  
that bares the heart  
that only serves to bleed  
could I've cut it out

there's always something that I bared  
that can never be repaired  
there's always something that I said  
it's just a habit of making bad
