

Crazy Man

Scott McKenzie

Everybody loves a crazy man
Help him keep the light
Everybody throw a penny in the pan
And help keep the light
Keep it shining down
Shining all around

Everybody's got to make his own way
And help him keep the light
Everybody's got to make himself pay
And help him keep the light
Keep it shining down
Oh, shining all around
Everybody needs a friend
He can go to and cry with now and then
'Cause every good time has to come to an end
That's how it goes
Everybody knows

Oh has anybody seen the busy man
Help him keep the light
If you see him you better catch him while you can
I think he's got the light
Keep it shining down
Oh shining all around
