

# Red Clouds

Scott Stapp

These are the days we live in  
Sliding, winding, finding our way through the maze  
The times of the unforgiven  
The light inside it slowly fades away, far away  
All these feelings have no meaning  
Are we bleeding or just dreaming  
I don't know  
These are the days we live in  
The times of the unforgiven  
Dying to find a reason  
Got to find a reason

Rain down  
Rain down  
Red clouds  
Wash over me  
Rain down  
Rain down  
Red clouds  
Come and set me free

This is the world we live in  
Wasted, naked, hatred won't let the love get through  
The sins of the unspoken  
The blood that's on your hands it's still on mine  
It's still on mine too, yeah

Rain down  
Rain down  
Red clouds  
Wash over me  
Rain down  
Rain down  
Red clouds  
Come and set me free

With carved out hollowed hearts  
All colors gone there's only black and white  
We stand so far apart  
We couldn't reach each other if we tried

Red clouds  
Rain down  
Red clouds  
Wash over me  
Rain down  
Rain down  
Red clouds  
Come and set me free  
Oh... oh...  
Red clouds  
Wash over me  
Oh... oh...  
Red clouds  
Come and set me free
