

The Big Hurt

Scott Walker

Now it begins, now that's you've gone
Needles and pins, twilight till dawn
Watching the clock till you return
Lighting that torch and watching it burn

Now it begins, day after day
This is my life, ticking away
Waiting to hear footsteps that say
Love will appear and this time to stay

Each time you go
I try to pretend
It's over at last
And this time the big hurt will end

Now it begins, now that's you've gone
Needles and pins, twilight till dawn
But if you don't come back again
I'll wonder when, oh when will it end
The Big Hurt
The Big Hurt
The Big Hurt

Ahora que comienza, ahora que la has ido
Needles and pins, twilight till dawn Agujas y alfileres, crepúsculo hasta el amanecer
Watching the clock till you return Mirar el reloj hasta que regrese
Lighting that torch and watching it burn Iluminación antorcha y que viendo que queman

Now it begins, day after day Ahora que comienza, día tras día
This is my life, ticking away Esta es mi vida, marcando distancia
Waiting to hear footsteps that say Esperando a escuchar pasos que decir
Love will appear and this time to stay El amor aparecerá y esta vez para quedarse

Each time you go Cada vez que vaya
I try to pretend Trato de fingir
It's over at last Es más, por fin
And this time the big hurt will end Y esta vez la gran final va a doler

Now it begins, now that's you've gone Ahora que comienza, ahora que la has ido
Needles and pins, twilight till dawn Agujas y alfileres, crepúsculo hasta el amanecer
But if you don't come back again Pero si no vuelven de nuevo
I'll wonder when, oh when will it end Me pregunto cuando, oh cuando va a terminar
The Big Hurt The Big Hurt
The Big Hurt The Big Hurt
