

Son

Scott Weiland

Coolness is staring at that sun
Coolness is driving with my son
Time and time again I'm not the man
Time and time again I'm not the one

Now got to sleep you little child of mine
I wish I had the beauty you hold inside
Now go to sleep you little boy of mine
You make the world a better place to find

Coolness is staring at that sun
Coolness is driving with my son
Time and time again I'm not the man
Time and time again I'm not the one

Now got to sleep you little child of mine
I wish I had the beauty you hold inside
Now go to sleep you little boy of mine
You make the world a better place to find

Ah
Now got to sleep you little child of mine
I wish I had the beauty you hold inside
Now go to sleep you little boy of mine

You make the world a better place to find
Ah
