

# Wrong Again

Scotty McCreery

It was only  
Just a little slow dancing  
Just a little romancing  
On a Friday night  
We shared some drinks  
Yeah only a couple  
But it sure wasn't nothing  
That would change my life

I just knew there was  
Nothing to it just  
Me and you and a  
Quick kiss goodbye

Wrong again  
'Cause your hand's still sitting here in mine  
This kiss being going on all night  
Look at you baby, look at you  
Just goes to show what I thought I knew  
Moon's gone but here comes the sunrise  
Find myself getting lost in your eyes  
Never thought I'd feel something so right  
Wrong again

It was only just  
A couple months dating  
Just anticipating  
For it to go south  
It'd been nothing more  
Than anything else  
Oh 'cause everybody else  
Didn't stick around

I just knew there was  
Nothing to it just  
Me and you until  
We just burned out

Wrong again  
'Cause your hand's still sitting here in mine  
This kiss being going on all night  
Look at you baby, look at you  
Just goes to show what I thought I knew  
Moon's gone but here comes the sunrise  
Find myself getting lost in your eyes  
Never thought I'd feel something so right  
Well it looks like I'm wrong again

I was never ever ever  
Absolutely never ever  
Gonna hit one knee  
And you would never ever ever  
Absolutely never ever  
Gonna say yes to me

Wrong again  
'Cause your hand's still sitting here in mine

This kiss being going on all night  
Look at you baby, look at you  
Just goes to show what I thought I knew  
Moon's gone but here comes the sunrise  
Find myself getting lost in your eyes  
Never thought I'd feel something so right  
Yeah I sure am glad that I was wrong again  
Yeah I'm wrong again, nothing new

It was only  
Just a little slow dancing  
Just a little romancing  
On a Friday night
