

Make Do and Mend

Scouting for Girls

You turned a corner
And I fell apart
I gave you everything
With which to break this heart

And yeah I faltered
When you took off
I'll always love you though
You know that I can't stop

You turn around
You turn around
You turn around
Now baby

You turn around
You turn around
You turn around
(Just turn around)

You, you
Just turn around
Turn around

And all that I wanted
Was for you to stay
And all that I wanted
Was slipping away
And all that I needed
Was for you to say
Let's just not make do and mend

At times, so perfect
At times, so bad
At times, it's just so good
The best you ever had

If things were different
If things can change
I'm sat here waiting, waiting
On a sunny day

You turn around
You turn around
You turn around
Now baby

You turn around
You turn around
You turn around
(Just turn around)

You, you
Just turn around
Turn around

And all that I wanted

Was for you to stay
And all that I wanted
Was slipping away
And all that I needed
Was for you to say
Let's just not make do and mend

Let's just not make do and mend
Let's just not make do and mend
Let's just not make do and mend

(Just turn around)
You turn around
You turn around
You turn around now baby
(Just turn around)

You turn around
You turn around
You turn around
(Just turn around)

You, you (You turn around, you turn around, you turn around)
Just turn around (Now baby, you turn around)
Turn around (You turn around, you turn around)

And all that I wanted
Was for you to stay
And all that I wanted
Was slipping away
And all that I needed
Was for you to see
Let's just not make do and mend

Let's just not make do and mend
Let's just not make do and mend
Let's just not make do and mend

Just turn around
Just turn around
Just turn around

You turn around
You turn around
You turn around
(Just turn around)

You turn around
You turn around
You turn around
(Just turn around)

You turn around
You turn around
You turn around
(Just turn around)
